## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

I. Claims 184-186, drawn to a cigarette, classified in class 131, subclass 360.

II. Claims 187-191, drawn to a method of making a nicotine buffer, classified in class 131, subclass 271.

III. Claim 192, drawn to a method for increasing nicotine and cured reducing sugar content in a *Nicotiana tabacum* plant, classified in class 800, subclass 260.

IV. Claims 193, drawn to a method for increasing alkaloid biosynthesis in a *Nicotiana tabacum* plant, classified in class 800, subclass 278.

V. Claims 194 and 195, drawn to a tobacco plant, classified in class 800, subclass 317.3.

VI. Claim 196, drawn to the method of making a tobacco product with lower levels of tobacco-specific nitrosamines, classified in class 131, subclass 297.

Art Unit: 1791

VII Claims 197-199, drawn to a tobacco product with lower levels of tobacco-specific nitrosamines, classified in class 131, subclass 352.

VIII. Claims 200, drawn to a method of making reconstituted tobacco, classified in class 131, subclass 370.

IX. Claim 201, drawn to a cigarette containing reconstituted tobacco, Classified in class 131, subclass 365.

The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature is taught by Lawson et al. (US 4,830,028), Conkling et al. (WO 98/56923, WO 02/100199, and US 2003/018997).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Felton whose telephone number is 571-272-4805. The examiner can normally be reached on Monday to Friday, 7:30 AM to 4:30 PM EST.
